Why Choose eBeam?

- Price –** eBeam is approximately 1/3 of the price of a fixed 78" fixed Interactive Whiteboard
- eBeam requires **NO expensive training**
- eBeam requires **NO costly and disruptive installation**
- Scalability -** eBeam will work on **ANY** size flat surface up to 107" diagonal (8' x 4') that's larger than any fixed board on the market!
- Functionality -** eBeam is a fully functional IWB – full control and annotation features

We also have a FREE online meeting function, share your lessons, remote teach for FREE via the eBeam server.
- Versatility -** eBeam will work on any flat surface – even a blank wall!
- Compatibility -** eBeam will run **ANY**¹ software, even other manufacturer's IWB software eg SMART, Promethean or RM's Easiteach. Useful if you are looking to standardise software and already have existing IWBs.
- Simplicity -** eBeam Software is really easy to use – no expensive training needed – tactile learning – intuitive software - 30mins out of the box you are an expert!
- Portability -** Take your eBeam with you! You can't carry a 60" fixed IWB from class to class or use it as a mobile presentation aid with ease, you can with eBeam!
- Gratuity -** eBeam software is free, so are the updates and so too is the site licence. The use of the eBeam server to host meetings is also free and so too are the firmware updates for the receiver.

¹ Proving the user has the appropriate software licence from any given vendor/publisher. eBeam software is licence free.
