

## eBeam Complete

eBeam complete combines the functionality of dry erase marker capture (eBeam Whiteboard) from your whiteboard with full interactive control of your PC from the board or wall (eBeam Projection).

You would choose eBeam Complete if...

- You wanted to capture dry erase marker notes as well as have a full interactive whiteboard when connected to a projector
- You didn't have access to a projector all the time but still required an element of interactivity in your meeting room or classroom
- You wanted to have the maximum flexibility the eBeam range can offer

If you are unsure about which product you require, please call us on 08702 432 326 and we will be happy to advise you.

It is also worth noting that both eBeam Whiteboard and eBeam Projection when purchased separately can be upgraded to eBeam Complete at a later stage by purchasing the additional components.
